

CHUCK E. PUMPKIN CARVING PATTERN

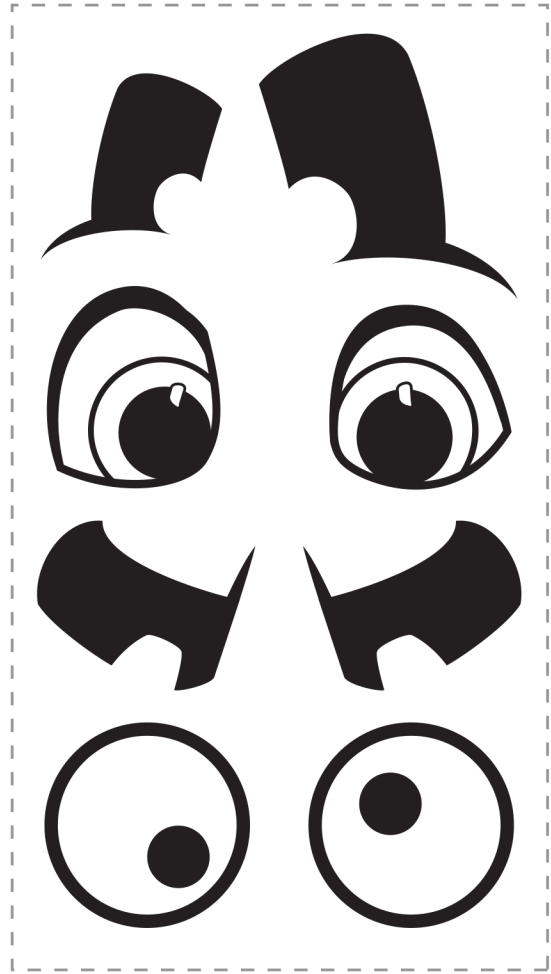

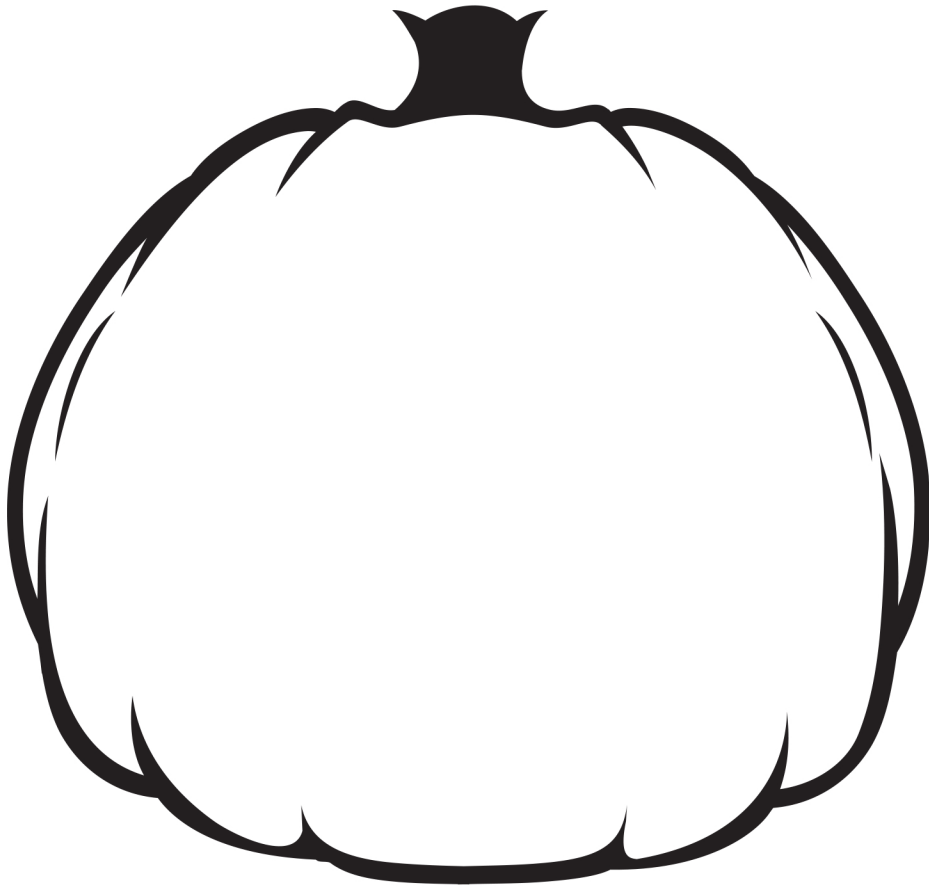

Tape the pattern to a clean, dry pumpkin, then have an adult score the design into the skin of the pumpkin by poking holes through the paper with a plastic poking tool (try using a pumpkin-carving kit). Carve by starting at the center of the design and working out. When each shape loosens up, gently push it out of the pumpkin with a finger or a dull pencil.

CHUCK E. CHEESE®

PUMPKIN DECORATING CUTOUTS

BUILD A PUMPKIN.

Print and have your kids cut and paste eyes, a nose and mouth.
